Elevator Pitch

- FoodShare is a community-driven platform that rescues surplus food from restaurants, grocery stores, and individuals, and redistributes it to B40 families, shelters, NGOs, and students in need.
- Using real-time listings, AI recommendations, and a volunteer delivery network, FoodShare reduces food waste while ensuring no one goes hungry.
- The app gamifies participation through points, badges, and community rewards, creating a sustainable, circular food economy.

Problem Statement

5

“Every day, 4,000 tons of edible food is wasted in Malaysia while many B40 households still struggle to afford basic meals.”

Key Issues

Restaurants and grocery stores discard edible food due to storage or expiry rules.

NGOs and shelters lack a structured system to request or manage donations.

Volunteers operate on WhatsApp groups, causing delays & inefficiencies.

Low-income families struggle with rising food prices.

No centralized, transparent platform connects surplus food to those who need it.

Solution: FoodShare App

A mobile & web platform that digitally connects donors → volunteers → beneficiaries.

Core idea:

- FoodShare makes it easy to donate food, request food, track donations, and mobilize volunteers, all in one app.

The app provides:

- Real-time surplus food listings
- AI-powered matching between surplus & demand
- Secure, verified donor/receiver profiles
- Volunteer delivery (crowd-delivery model)
- Gamified community participation
- Analytics for NGOs & businesses

The background of the slide is a dark green color. It is decorated with various illustrations of leaves and branches. In the top left, there are small green leaves. In the top right, there is a single green leaf. In the center, there is a light green speech bubble containing the text 'Mission & Vision'. To the left of the speech bubble, there is a branch with several green leaves. To the right of the speech bubble, there is a yellow leaf. In the bottom left, there are dark green leaves. In the bottom right, there are light green leaves and a branch. The overall design is clean and modern, with a focus on nature and sustainability.

Mission & Vision

MISSION

To reduce food waste and fight hunger by connecting donors, volunteers, and vulnerable communities through a transparent, community-driven food-sharing platform.

VISION

To build Malaysia's largest sustainable food-sharing ecosystem where no edible food is wasted and no one goes hungry.

Executive Summary

- Initially we will have no established customer base, but we will build it through marketing and quality service.
- Develop our products or services from scratch, focusing on vending machines that process and sell fruits.
 - Need to secure locations for placing our vending machines.
- Maintain full control over the management and operations of the business.
 - Focus on necessary marketing efforts to attract customers.
 - Start with no reputation and work to build a positive brand image.
 - Do not pay any royalties or fees.
- Require initial financing to cover the costs of vending machines and sourcing fruit.
 - Do have any prior disclosures to manage, as we are a new business.

Executive Summary

Target Market Description

Table 1.2 Target Market Description	
Factor of Target Market	Description
B40 households, NGOs, homeless shelters, single mothers, elderly, and university students	B40 households, NGOs, university students, local restaurants & grocery stores
Surplus cooked meals, unsold groceries, buffet leftovers, bakery surplus	Surplus food rescue, low-cost meals, volunteer delivery
Afternoon, evening, and business closing hours	Daily – peak hours: lunch, dinner, end of business day
Restaurants, grocery stores, campuses, NGOs, shelters	Klang Valley (Phase 1), later Selangor & Malaysia
Reducing food waste, supporting vulnerable groups, and promoting sustainable consumption	Reduce food waste, support B40, lower meal costs, improve efficiency

Product/Service Offerings

Table 1.3 Product/Service Offerings	
	Description
Surplus Food Listing System	Donors post surplus food in real time
AI Matching Engine	Recommends best match between donors & beneficiaries
Volunteer Delivery Module	Community riders deliver donated food
Impact Tracking + Gamification	Points, badges, leaderboard

Executive Summary

Summary Financial Projections

Table 1.11 Summary Financial Projections			
Topic	Key Measure	Growth or Growth Rate	Time Frame
Revenue	CSR + sponsors	20%–40%	3–5 years
Profitability	Positive by year 3	10%-20%	3 years
Industry Position	Klang Valley leader	5%-10%	5 years
Value	3x valuation	3x increase in value	5-7 years

FoodShare has the potential to develop through a network of restaurants, groceries, NGOs, and colleges, expanding city by city on a low-cost digital model. Long-term plans for FoodShare include franchising or licensing to regional operators, and potential exits include acquisition by a large logistics/food delivery company or conversion into a nationwide NGO-driven platform.

Key Metrics

11

01

For Donors (Restaurants, supermarkets, households)

- Post surplus food with quantity, expiry & pickup time.
- Auto-expiry timer for food safety.

02

For Receivers (B40 households, NGOs, students)

- Request food anonymously.
- Choose pickup or volunteer delivery.

03

For Volunteers

- Accept delivery tasks.
- Earn Loyalty points & Discount codes.

Business Model

01 Premium Subscription

(rm 5-10 per month)

Auto-scheduling · Analytics · Tax Reports · Priority Listing

02 Corporate Sponsorships

Funding redistribution for impact projects

03 Eco-friendly Ads

Only sustainable brands & waste reduction partners

04 Delivery Fee

RM3–RM5 for urgent deliveries

05 NGO Toolkit

Dashboard & donation tracking insights

How You Make Money

Roadmap

Month 1-2	Branding, MVP development, and basic food listing system
Month 3-5	Launch pilot in first community; add AI matching and volunteer delivery module
Month 6-9	Build partnerships with NGOs and restaurants; launch social media campaign
Month 9-12	Stabilise operations, refine app features, measure impact, and prepare for expansion
Year 2	Multi-city expansion and full NGO integration
